

### **ABSTRACT OF THE DISCLOSURE**

The present invention is to provide a convenient way of automatically dispensing deodorant spray out of a widely used air freshener spray can at every use of the toilet, thereby eliminating the need for looking for a air freshener. Moreover, this invention is a very hygienic way of using toilet and keep it automatically odor and germs free, for other to use. This simple automatic adjustable dispenser is mounted on the side of a flush tank and securely locked by means of a hand turning screw head. The placement is such that the variable actuator lever automatically depressed at every flush of the toilet. Any size of deodorant spray can is placed and adjusted once for it complete use.

This invention will bring ease and hygiene in our house-hold and other commercial applications by providing automatic elimination of odor causing germs and yet eliminating the need for looking for a spray can and also avoiding the use of hand that can very well transfer germs from person to person.
